DEMANDING CHALLENGES. EXCEPTIONAL RESULTS.

Argus Contracting & Prime Industrial Access: Delivering superior scaffolding services through our team of skilled installers and access equipment.

Our team is recognized as being highly safe and very dependable for a wide array of scaffolding, shoring and bracing. From design and full project management to expert erection/dismantling and reliable equipment, you can count on Argus Contracting & Prime Industrial Access to provide comprehensive solutions to fit your access needs and competitive costs to fit your budget.

Our unwavering objective is to provide customers with effective and efficient solutions to their scaffolding access needs no matter how complex the job. Our specialized experience and ability to leverage the extensive Irex Contracting Group network give us a vital advantage to offer you a wide array of scaffold equipment. This gives us the flexibility and the means to design and execute access solutions for almost any environment.

Our work with you extends beyond just the scaffolding installation itself. Argus Contracting & Prime Industrial Access deliver value-added scaffolding services that maximize your project's productivity ... while keeping you in OSHA compliance for access. Our use of state-of-the-art tools, material tracking applications, estimating tools and comprehensive project management give you value that manifests itself in jobs done efficiently and to your exacting specifications ... on-time and within budget.

With access to a variety of modular frame and systemized scaffolding products, combined with the design and installation experience of our personnel, we can quickly bring your project to fruition under demanding timelines. Whether you're looking for frame scaffoldings for your small- to medium-sized projects, or you're looking for the complexity of a modular system, we have the product and installation ability to meet your specific platform access needs.

Fast response when an emergency requires it.

We're just a phone call away, any time of day you need us. So when an emergency occurs, we jump into action as fast as you. We'll have a crew on-site within 24 hours of your call. And in many cases, we'll have the solution in place for you to take quick action.

Safety is always our number one priority.

All of our scaffolding products are rigorously maintained and regularly checked for quality and reliability on an ongoing basis. We strive for 100% compliance of all state and federal safety regulations, and make sure all of our personnel are highly trained and up-to-date with the industry specific standards and needs.

Experienced in many industries and applications.

Because of our years of experience in working in the industrial sector, we are equipped to handle scaffold system design and construction in refineries, power plants, chemical & petrochemical plants and pulp & paper mill environments. We are used to working under tight deadlines while still delivering the demanding safety requirements that come hand-in-hand with working in an industrial setting.

For commercial construction projects, we specialize in fixed pipe scaffold installations that meet and exceed the requirements of any project as well as industry standards. Whether you're looking to erect a standard frame scaffold tower or design and implement an intricate system scaffold, our team has the experience and training to complete your build.

General contractors, bridge builders, painters, roofers, mechanical contractors and insulation firms all know the value of putting us to work on their projects. Simply put, we work hard and smart to help ensure their customer's complete satisfaction.

Part of Irex Contracting Group

Argus Contracting & Prime Industrial Access are subsidiaries of Irex, a North American network of leading-edge, highly-skilled and specialty-focused contractors delivering exceptional value in innovation, performance, safety and service. The subsidiary companies have various specialties, the right tools and the experienced people to deliver effective solutions. The Argus Contracting & Prime Industrial Access team has supported Irex companies in their scaffolding needs, giving them greater experience and industry knowledge that benefits you on your projects.

When it comes to choosing a scaffolding, shoring and bracing sub-contractor for your next project, make the best choice ... Argus Contracting & Prime Industrial Access.
